CZAR WILL CONTINUE WAR AGAINST JAPAN

War Will Be Pressed With the Utmost Energy.

SITUATION IN POLAND RUSSIA

Strikers Prevent Railroad Officials from Operating Trains—Memorial Services for Grand Duke Sergius Are Held in London.

Berlin, Feb. 24.—2:12 p. m.—The emperor of Russia has elected to continue the war.

His position is absolutely firm and the German court has been advised in that sense.

The war will be pressed with the utmost energy, the domestic situation being now within the control of the authorities. Those who have advised peace and suggested inquiries for Japan's terms, the French and British governments are for the present silent and are likely to remain so unless events of an extraordinary character shake the Russian emperor's resolution. The considerations that led to the emperor's decision, it is understood here, are:

First, the judgment of the chiefs of the army that Field Marshal Oyama not only cannot defeat General Kuropatkin, but stands in danger of defeat himself. How cowardly, therefore, for Russia to ask for mercy, with all the men and money essential to carry on the war.

Second, all the forces of criticism now directed against the government for having fought rather than yield to legitimate interests and for having failed to win victories would be continued with added fury against the government, that adopted war and then betrayed the country. A government that would crave peace of Russia's enemy while still capable of wining victory would be giving the party of change genuine grounds for a revolution.

The facts of the military situation, love of country and arguments of expediency were all against peace and for pressing the war hopefully.

Warsaw, Feb. 24.—No trains are running in either direction today on the Vienna railroad. The management attempted to install soldiers as firemen, but the strikers had plugged the water gauges with the result that the amateur firemen ruined four locomotives.

The strikers also derailed a number of cars. The men demanded an eight-hour day and an increase of wages. The directors offered an increase of wages to some employes and to grant a nine-hour day, but the strikers refused.

A manifesto issued today by the strikers says they struck to show their solidarity to other trades at this important juncture of the labor movement and because of the management oppressed and exploited the men.

The employes of the government alcohol monopoly walked out today.

A general strike on the Viatula and St. Petersburg railroad is hourly expected.

The workmen have struck in all the factories of the Czerinakowska district, the chief manufacturing suburb of Warsaw. There have been serious disturbances and strong forces of police and troops were summoned. The soldiers fired, but no casualties were reported. The police arrested many persons, but the threats of the mob compelled them to release their prisoners. The employes of the Lodg-Kolusaka railroad have also struck. Lodz is entirely cut off from railroad communication.

London, Feb. 24.—A memorial for the Grand Duke Sergius was held today at the Russian church connected with the embassy and was attended by County Benckendorff, the Russian ambassador in Great Britain, and the other members of the Russian embassy, representatives of King Edward and the Prince of Wales, Ambassador Choate and other diplomats. Sir Bernard Eric Barrington, private secretary of Lord Lansdowne the foreign secretary, represented the foreign office.

Moscow, Feb. 23.—The solemn ceremony of blessing the remains of the Grand Duke Sergius was performed at 10 o'clock this morning in the midst of the tolling of bells of all the churches and monasteries of the ancient capital. Immense crowds thronged the open squares in front of the palaces and there was a considerable display of troops in the streets. Grenadiers of the Kieff regiments furnished the guard at the Chaudoff monastery, which was the scene of furnerals services.

ADMIRAL WAS JUSTIFIED.

North Sea Commission Says Russians Are Excusable for Action.

Paris, Feb. 24.—A semi-official statement has appeared relative to the work of the international commission, which has been considering the North sea incident. It is as follows:

"The Hull commission met this morning in the ministry of foreign affairs, and again this afternoon, in order to proceed to a final examination of the report recapitulating its conclusions. The report is rather long, comprising about ten large pages. The principal author is Admiral Von Spaur, Austrian, but all the members of the commission collaborated in drawing it up. The commission gives no opinion on the question of the presence or absence of Japanese torpedo boats in the North sea, declaring merely that the Russian admiral legitimately believed that his squadron was endangered, and that he had the right under the circumstances, to act as he did. The commissioners refer to the Russian government's engagements to indemnify the victims of the deplorable incident."

News Not Heard in London.

London, Feb. 24.—Questioned in the house of commons today regarding the session of the result of the inquiry into the North sea commission published today, Earl Percy, under secretary for foreign affairs, said that no information on the subject had yet been communicated to the government.

RUMORS OF BIG BATTLE.

St. Petersburg Hears that One Is In Progress Near Mukden.

St. Petersburg, Feb. 24.—Although the city continues full of rumors that a big bmattle is proceeding below Mukden the war office does not offer an confirmation of the reports.

Special dispatches, however, as well as can be judged by the mutilated manner in which they were allowed to pass the censor, portend the imminence of extensive operations. The Japanese are showing activity on both flanks and the railroad has again been damaged by a raid of mixed Japanese and Chinese bandits.

In diplomatic circles a story is now afloat to the effect that the opinion expressed by German military authorities based on reports from military experts at the front that the situation is by no means hopeless, have greatly influenced the emperor and encouraged him against the idea of concluding peace.

Big Fire in Virginia College.

Richmond, Va., Feb. 24.—Science hall at the Virginia Polytechnic Institute of Blacksburg, Va., was totally destroyed by fire today. By heroic effort the cadet fire brigade saved No. 4 barracks, which was in great danger. The loss is estimated at $75,000; insurance. Very little of the apparatus in burned building was saved. One person was struck on the head by falling timbers and rendered unconscious. The origin of the fire is a mystery, but the theory is spontaneous combustion.

Preacher Drowned Near Elijay, Ga.

Elijay, Ga., Feb. 24.—Rev. J. L. Anderson is missing and supposed to be drowned and now in Cartecay river near Elijay. He is pastor of the Methodist Episcopal church at Elijay, but was teaching at Oakland High school On Monday morning he left his young wife, to whom he had just been married ten months, and started on horseback to his school. Soon afterwards his horse was discovered near the ford of Big Owltown creek, a swollen stream on the Dahlonega road, three miles east of Elijay. The horse was snagged in the shoulder, very wet and had sand in his mane and ears.

CONGRESS WANTS TO SEE COPY OF LEASE

Given Foster In Regard To The Osage Indian Oil Lands.

Officers of General Fitzhugh Lee Confederate Army Corp Will Be present at Inauguration—Senate Passes Panama Canal Bill.

Washington, Feb. 24.—The house committee on Indian affairs today drafted a substitute for the Stephens' resolution on inquiry directed to the secrtary of the interior regarding the Foster lease of Osage Indian oil lands and authorized the reporting of the substitute. The language of the substitute is that the secretary of the interior is hereby requested to furnish the house with all convenient speed a copy of the lease made between the chief of the Osage nation of Indians and Edwin B. Foster, on the 16th day of March, 1896, and a copy of the departmental approval thereof; also copies of all forms of sub-leases granted under said lease, also a list of all sub-yeases which have been submitted to the interior department and approved and a list of all leases which have been submitte dto the department and which have not been approved; and also all documents and correspondence pertaining thereto.

The drift of the inquiry was made on suggesiton in the committee that the Stephens resolution contained inquiries on maters which the house had no right to ask of any department secretary and also that its original form would make it subject to a point of order in the house to prevent its adoption.

All of the officers of the general Fitz Hugh Lee's corps of the confederate army in the civil war who can be in Washington March 6, will give their former commander a complimentary dinner on that date. The arrangements are in charge of the committee on which Captain R. E. L. Miche, of the general staff, is chairman.

Stuyvesant Fish, president of the Illinois Central railroad, read a statement before the senate committee on inter-state commerce, which had the railroad rate bill under consideration. Several members of the committee desired Mr. Fish to discuss the subject of differentials before the committee, and give his views.

In the House.

Upon convening today the house adopted resolutions calling on the secretary of the interior for information as to whether any Indian appropriations or funds had been expended for the support of any sectarian Indian schools, and also requesting copies of the original Foster Oil land lease in the Osage reservation and for the approval of the same.

In the Senate.

Mr. Hale, from the committee on naval affairs reported the naval appropriation bill saying that as soon as the other business of the senate would permit he would ask that it be taken up for consideration. Mr. Foster (Wash.) presented the credentials of Miss Samuel H. Piles, his successor in office.

Mr. Hale's resolution directing the termination of the Swayne trial by next Saturday, again went over and Mr Platt (Conn.), chairman of the special committee having the trial in charge, explained that the outlook for an early close of the proceedings was good. He added that the managers on the part of the house and counsel for Judge Swayne are expected to reach an agreement to vote on the case by the end of the week unless the senate itself should want to discuss the matter before voting on it.

The senate passed the Panama canal bill without material amendment.

At 5 o'clock the impeachment trial of Judge Swayne was resumed.

The president today sent to the senate the following nominations:

Postmasters—Alabama: Dora Crook, Jacksonville.

Kentucky: Isaac N. Bryant, Corbin.

Louisiana: James S. Thomson, Lake Charles.

PAROLED OFFICERS GO HOME.

Travel by Night to Keep From Falling Into Hands of Bandits.

New Chwang, Feb. 24.—Numbers of paroled Russian officers who took part in the defense of Port Arthur claiming that they are on their way home in Siberia, have reached here from Shanghai, and go hence to Shaiminitin. From the later place they journey to Mukden in carte, traveling at night so hs to avoid Chinese bandits.

Russian agents west of the Liao river keep in touch with certain inhabitants in New Chwang, and it is believed that several of the foreigners who have since removed from here, inspired the first Russian raid on New Chwang.

The Japanese administration is now exercising a more strict censorship, and is taking steps to prevent a repetition of the leakage of information.

The Tien Tsin-Sinmintin railroad is suffering from an excess of freight. There are heaps of cases of cheap Shanghai-made liquor and other stores at Ching-Wantao, awaiting transportation. Greeks and nondescript venders are making large profits in trading with the Russians. In addition, there is a constant stream of low class women making their way to and from Tien Tsin.

Tie Pass, north of Mukden, is not considered in danger, as was reported at the time the Japanese raid in that direction.

OLD MEN SHOULD BE RETIRED.

Usefulness of Man Gone When He Reaches 60 Years of Age.

Baltimore, Md., Feb. 24.—In his farewell address at the anniversary exercises of John S. Hopkins university, Dr. William Osler, who is about to become head of the medical school of Oxford university, declared that nothing in the world is accomplished by a man more than 40 years old, and that men of 60 years should be retired or chloroformed. American colleges are, he declared, teaching hybrid systems of medicine and producing ignorant practitioners and Europe is far ahead of the United States in medical universities. My idea as to the comparative uselessness of men above 40 years of age," he said, "may seem shocking, and yet the world's history bears out the statement.

"In the science, art, literature and medicine, there has not been an advance of the first rank which has not been initiated by young, or comparatively young men.

"My second fixed idea is the uselessness of men above 60 years of age and the incalculable benefit it would be in commercial, political and professional life, if, as a matter of course, men stopped work at this age."

UNIONS FIGHTING EACH OTHER.

Chicago Carpenters and Bricklayers at Loggerheads Over Holiday Question.

Chicago, Feb. 24.—Over the matter of a Saturday half-holiday 8,500 carpenters and 3,500 bricklayers are in a dead-lock with their employers, arbitration having failed to relieve the situation thus far.

The difficulty is made more serious because of the refusal of each union to yield to the desires of the other. While the bricklayers are standing out for a weekly half holiday, the year round, they were prevented from accepting a compromise from the employers by reason of the carpenters' position. The latter workmen have enjoyed such a Saturday vacation, and are loath to yield any part of it. The contractors insist upon the same terms for both trades. In place of the bi-weekly pay day now in effect, the men also demand that they receive their wages every seven days.

All the differences have been submitted to arbitration committees from the unions and the building contractors' council. In case of failure to reach a settlement an umpire will be chosen.

An Aged Methodist Preacher Dies.

Nashville, Tenn., Feb. 24.—Rev. Joshua Godbey, one of the most widely known ministers of the Southern Methodist church, is dead at Bethel Ridge, aged 71 years. He had been a Preacher for over 50 years, and five of his sons are ministers. He is survived by one hundred and ten grandchildren.

EIGHTY THREE BODIES RECOVERED SO FAR

Work Of Getting Dead Men Out Of Mine Continues.

GOV. ORDERS AN INVESTIGATION

On Account of the Bodies Decomposing So Rapidly the Work of Rescue Is Very Disagreeable and Hard. $10,000 Raised for Families of Dead.

Birmingham, Ala., Feb. 24.—At 10 o'clock this morning 83 bodies of victims of Monday's explosion have been taken from the mines and seven more are in sight and will be gotten out by the afternoon, making a total of 90 victims.

After these seven bodies are removed, active work will cease and the work of pumping the flooded portion of the mine will be begun, as it has been found impossible to rescue the bodies of the men in that part of the mine until the water is gotten out.

It is figured that it will be the middle of next week before this can be completed, so that the remaining bodies will have to remain underground until then.

President Flynn, of the United Mine Workers, has wired for more men to assist in this work. Horrible odors pervade the entire mine, arising from the decomposing bodies, and disinfectants have to be used liberally to enable the rescuers to work.

The funerals of scores of victims took place today at Virginia and nearby mining camps, where the dead men resided.

Acting Governor Cunningham has ordered a rigid investigation into the cause of the disaster.

A relief fund of more than $10,000 has been raised here for the families of the victims.

ACCEPTS NEW AGREEMENT.

San Domingo Will Stand by Treaty With United States.

New York, Feb. 23.—One of the leading members of the hous eof deputies is authority, according to a Herald dispatch from Puerta Plata, San Domingo, for the statement that the Dominican congress will accept the new agreement with the American government with certain modifications. Congress will begin its session on Feb 27. It is desired, the correspondent stated, that Article 2, of the treaty shall be so amended as to permit the Dominican government to name the officials who are to collect duties in the ports whose customs houses are in charge of the United States, those of them to be named on the approval of the American government and to be Americans, if desired.

Dominicans also desire such a change in Article 7 as will provide against a landing of troops in the republic.

Excitement in Monte Cristi is dying out, and the lieutenant commander Lieper, continues in full charge of the custom house. Six American war vessels are in the harbor.

Afraid Girls Will Marry Filipinos.

Indianapolis, Feb. 24.—Senator Davis introduced a bill today to prevent whites from marrying persons having more than one-eighth Filipino blood. The bill grew out of a situation at Bloomington, where Filipino students are attending the State university and are flirting with white girls. Parents of these girls are fearful of marriages and have requested the passage of the bill.

Officer Killed by Indian.

Siloam Springs, Ark., Feb. 24.—John Henry Vier, deputy United States marshal of the Indian Territory, has been shot and killed in the territory, 16 miles west of here, by Charles Wickley, a Cherokee Indian. Vier, with a posse, was hunting hog thieves, and stopped at the home of an Indian by the name of Hogshooter. Wickley was in an adjoining room. Vier stepped to the door to investigate when a shot was fired, the bullet piercing the heart of Vier, causing instant death. Wickley escaped. He is wanted for the shooting of a deputy marshal over a year ago.

A DAY'S DOINGS IN THE CIRCUIT COURT

Very Little Business Disposed of in the Court Friday.

HOLLOWAY CASE POSTPONED

By Motion of Attorney for Defense, Who Realized Congested Condition of Docket, and Approval by State's Attorney, to be Tried in Special Term.

While the circuit court and the grand jury were busy all day Friday, little progress was made, as the cases before the respective bodies were long and tedious ones.

The grand jury was working during the entire day on the Chamberlain murder case, but there were so many witnesses to be examined in this case that it was impossible to arrive at a conclusion, and the jury was discharged by Solicitor Calhoun until Monday.

In the court room the case of W. H. Tillis vs. the Liverpool and London and Globe Insurance Company, action on the case to recover a claim of $3,000 insurance on property destroyed by fire at Rochelle several years ago, was taken up at the opening of the court. The jury was empanelled and sworn and the case proceeded, but late in the afternoon was suddenly interrupted by a decision of the court declaring the case a non-suit, which checked the proceedings, whereupon the court adjourned until Monday morning at 10 o'clock.

The Holloway Case.

During the day Attorney Syd. L. Carter, representing the defendant in the case of the State of Florida vs. Wm. M. Holloway, charged with the interpolation of a certain letter, made a motion to the effect that, on account of the congested condition of the docket, this case be continued to a special term, which was granted by the Judge, after approval by State's Attorney Calhoun, who realized that the case would probably consume several days and detain the session of the court at largely increased expense. Judge Wills stated to a Sun reporter that he was not positive at what date this special term would be held, but more likely in June.

In the motion for a continuance in the case of the State vs. Wm. H. Holloway, Attorney Syd. L. Carter for the defense said:

"May it please Your Honor:

"As one of the counsel for the defendant in the case of the State vs. W. M. Holloway, I wish to state that if it is impracticable to try this case next week, I think it should be known now before any more expense is incurred.

"I understand that there is a large number of cases pending before the grand jury in addition to those now on the criminal docket that will probably occupy every moment of the court's time during its regular spring term. I recognize the fact that it will be a hardship on the witnesses, many of whom occupy positions of importance—school teachers, ministers, etc.—to have to wait here until this case can be reached in its regular order, it being simply a misdemeanor and has to give way to the trial of murder and other high felonies, the jail being full of this class of offenders, and the jail cases having precedence on the docket.

"Moved by these considerations, I wish to say that the defendant's counsel realize the wisdom of an adjourned term of this honorable court, at which this and other cases that cannot be reached now may be tried and finally disposed of; and if the State's attorney finds such a congested docket as precludes the possibility of trial next week, we have no objection to the calling of a special term or of an adjournment of the present one to a time when the case can be tried."

Grand Jury Busy.

State's Attorney Calhoun, who has been busy with the grand jury this week, stated that there were a large number of cases before the jury, and that a final adjournment would probably not occur until Friday of the following week. The session of the court, owing to the large number of indictments which will be reached this term, will not end until about the middle of March.

The court adjourned Friday evening until Monday morning at 10 o'clock.

A NEWSPAPER OPINION

Of the Congress of Nations and "Ben-Hur" Scenes.

There was a good audience at the opera house last night to see William H. and E. B. Josselyn's Congress of Nations, and all who attended were delighted. This is a show very much out of the ordinary. It consists of 815 moving photographic flat scenes produced by the biggest machine of the kind in the world.

It is not the moving pictures which glimmer and hurt your eyes, but an improved kind which move and do not glimmer. The pictures are forty-six feet long and thirty feet high, and all there is to be seen of any interest in the world is shown as a living, moving reality. It is one of the most interesting attractions ever seen at the opera house. There was a large crowd present this afternoon at the matinee and the house will be crowded tonight. Nobody can afford to miss the opportunity of seeing this great show.—Times-Journal, Bowling Green, Ky., January 28.

This mammoth attraction will be seen at the opera house, Gainesville, Wednesday evening, March 1st.

Grand Master Here.

Grand Master Thos. W. Ralph of the Independent Order of Odd Fellows, who makes his home in St. Augustine, was in the city for a few hours yesterday. He was en route to High Springs, where last night he paid the High Springs lodge an official visit.

Prof. Ralph was for many years Superintendent of Public Instruction for Putnam county. He is one of the magnanimous, whole-souled gentlemen in Florida, an enthusiastic Odd Fellow, and numbers his friends throughout the State by the thousand. He was formerly a citizen of Palatka, where he was, in connection with his duties as superintendent of schools, associate editor of The Times-Herald. Under the influence of his wonderful pen that excellent journal gained a reputation many years ago, which it yet retains.

No Change in Missouri Content.

Jefferson City, Mo., Feb. 24.—No material change in the deadlock over the section of a United States senator resulted from the two ballots of the joint session of the legislature today. The thirtieth ballot resulted as follows: Niedringhaus, 65; Cockrell, 74; Kerens, 12; McKinley, 3; Albus, 1.

Distinguished Visitor Here.

Among the prominent visitors to this city are Hon. and Mrs. J. N. Coombs of Apalachicola, who came to visit their grandsons, students of East Florida Seminary.

Col. Coombs is an extensive lumber manufacturer, banker and merchant of the City by the Gulf—in fact, is the commercial backbone of that section. He is not only prominent in commercial circles, but politically also, being a member of the National Republican Committee, and one of the strongest leaders of the party in Florida. If one is to judge by appearances, Col. Coombs did not come for a social visit alone, but for an important political conference with Messrs. Robinson and Chubb, the recognized leaders of Republicanism in this section of the State.

Grave Trouble Foreseen.

It needs but little foresight to tell that when your stomach and liver are badly affected, grave trouble is ahead, unless you take the proper medicine for your disease, as Mrs. John A. Young of Clay, N. Y., did. She says: "I had neuralgia of the liver and stomach, my heart was weakened, and I could not eat. I was very bad for a long time, but in Electric Bitters I found just what I needed, for they quickly relieved and cured me." Best medicine for weak women." Sold under guarantee by all druggists at 50c a bottle.

Conditions That Unfit For Marriage.

The low paid employee today can succeed as well alone as with a wife, which his ancestors could not do. At the same time his selfish enjoyments are greater without her, for he may live irresponsibly, without a motive to save and with all his surplus available for wayside pleasures of an antisocial sort. The disintegrating forces of a great city upon homeless youth are too obvious to need emphasis. The wage earning girl, on her part, is likely to acquire the taste of fragmentary, pointless and unproductive spending. Both form habits harmful to the altruistic motives of group living—of the home idea. A man who goes from the saloon, street corner or cheap pleasure club; a girl who leaves the dance hall and pavement glitter to make a home for him, the bare necessities of which are hardly met by his wages, are not qualified by their experiences to bring to a successful issue the supreme test of character that makes stable a high standard.—Professor Simon N. Patten in Independent.

A Soft Answer.

It was in 1872 that George Chesmore Bromley, author of "Long Ago and Later On," became a member of the Bohemia club of San Francisco and soon found himself "Sire of the Low Jinks," which occasion he vividly recalls, and especially his arrival at home afterward. He writes: "My dear little wife awoke at my entrance and inquired the time. I looked at my watch and replied, 'Ten minutes past 10,' and then laid the watch on the mantelpiece. Having some doubts as to the correctness of my reply, the little woman arose and looked for herself. 'What time did you say it was?' she asked again. 'Ten minutes past 10,' said I. 'Ten minutes past 10! Why, it only lacks ten minutes of 2,' said she. 'Is that so?' said I. 'Why, bless my soul, how time flies! I had no idea that I had been home so long.' This was another occasion when I realized that 'a soft answer turneth away wrath.'"

THE IDEAL WIFE

Shapes the Destiny of Men—The Influence of a Healthy Woman Cannot Be Overestimated.

Seven-eighths of the men in this world marry a woman because she is beautiful in their eyes—because she has the qualities which inspire admiration, respect and love.

There is a beauty in health which is more attractive to men than mere regularity of feature. The influence of women glorious in the possession of perfect physical health upon men and upon the civilization of the world could never be measured. Because of them men have attained the very heights of ambition; because of them even thrones have been established and destroyed.

What a disappointment, then, to see the fair young wife's beauty fading away before a year passes over her head! A sickly, half-dead-and-alive woman, especially when she is the mother of a family, is a damper to all joyousness in the home, and a drag upon her husband.

The cost of a wife's constant illness is a serious drain upon the funds of a household, and too often all the doctoring does no good.

If a woman finds her energies are flagging, and that everything tires her, dark shadows appear under her eyes, her sleep is disturbed by horrible dreams; if she has backache, headaches, bearing-down pains, nervousness, whites, irregularities, or despondency, she should take means to build her system up at once by a tonic with specific powers, such as Lydia E. Pinkham's Vegetable Compound.

This great remedy for women has done more in the way of restoring health to the women of America than all other medicines put together. It is the safeguard of woman's health.

Following we publish, by request, a letter from a young wife.

Mrs. Bessie Ainsley of 611 South 10th Street, Tacoma, Wash., writes:

Dear Mrs. Pinkham:—

"Ever since my child was born I have suffered, as I hope few women ever have, with inflammation, female weakness, bearing-down pains, backache and wretched headaches. It affected my stomach so that I could not enjoy my meals, and half my time was spent in bed.

"Lydia E. Pinkham's Vegetable Compound made me a well woman, and I feel so grateful that I am glad to write and tell you of my marvelous recovery. It brought me health, new life and vitality."

What Lydia E. Pinkham's Vegetable Compound did for Mrs. Ainsley it will do for every woman who is in poor health and ailing.

Its benefits begin when its use begins. It gives strength and vigor from the start, and surely makes sick women well and robust.

Remember Lydia E. Pinkham's Vegetable Compound holds the record for the greatest number of actual cures of woman's ills. This fact is attested to by the thousands of letters from grateful women which are on file in the Pinkham laboratory. Merit alone can produce such results.

Women should remember that a cure for all female diseases actually exists, and that cure is Lydia E. Pinkham's Vegetable Compound. Take no substitute.

If you have symptoms you don't understand write to Mrs. Pinkham, Lynn, Mass., for special advice—it is free and always helpful.

Lydia E. Pinkham's Vegetable Compound Succeeds Where Others Fail.

The Sphinx's Riddle.

The riddle which the sphinx propounded to the Thebans and the solution of which she made a condition of her withdrawal from the state was as follows: "What animal has one voice, at first four, then two and at last three feet?" Œdipus discovered the answer to be "man," who in infancy, from using his hands as well as his feet in walking, may be said to have four feet (all fours), in after life employs but two, and in old age to these he adds a staff, which may be reckoned a third. Upon this solution being given the sphinx is said to have thrown herself headlong from the citadel.

Women find quick relief in Dr. Thacher's Liver and Blood Syrup.

Rossetti's Awful Breakfast.

It was at one time arranged that Dante Gabriel Rossetti, his brother William and Swinburne and George Meredith should live together in a certain house. Meredith happened to see Dante Gabriel Rossetti at breakfast and changed his plans. Meredith himself tells the story. "It was past noon," says he. "Rossetti had not yet risen, though it was an exquisite day. On the breakfast table on a huge dish rested five thick slabs of bacon, upon which five rigid eggs had slowly bled to death. Presently Rossetti appeared in his dressing gown, with slippers down at heel, and devoured the dainty repast like an ogre." That meal was too much for Meredith, and he sacrificed three months' rent rather than see it repeated.

Some people have the taking-cold habit

The old cold goes; a new one quickly comes. It's the story of a weak throat, weak lungs, a tendency to consumption. Ayer's Cherry Pectoral breaks up the taking-cold habit. It strengthens, soothes, heals. Consult your doctor about this.

NEWS OF CITY AND COUNTY CONDENSED

B. Poleman and W. L. Jackson, two of Archer's progressive citizens, were among the arrivals in this city yesterday. These gentlemen have been summoned to serve on the jury the coming week.

W. A. Malphurs of LaCrosse was in the city yesterday. Mr. Malphurs has returned from South Florida, where he has been engaged for the past two years in raising vegetables, but he says he prefers the lint crop, hence will resume the growing of cotton, notwithstanding the low price. He has great confidence in the cutaway harrow and cotton stalk eater and states that every two-horse farm is away behind the times without these modern machines.

Heart Weakness.

Dr. Miles' Heart Cure has made many hearts well after they have been pronounced hopeless. It has completely cured thousands, and will almost invariably cure or benefit every case of heart disease.

Short breath, pain around heart, palpitation, fluttering, dizzy, fainting and smothering spells should not be neglected. Take Dr. Miles' Heart Cure and see how quick you will be relieved.

It cannot make a new heart, but will restore a sick one by strengthening the heart nerves and muscles, relieving the unnatural strain, and restoring its vitality.

"I had a very bad case of heart trouble. For six months I could not work. Last July I was plowing corn and feeling bad all day; in the afternoon in plowing one row I had to lay down, or fall down, three times. My heart throbbed as though it would burst through, and I had difficulty in getting my breath. I purchased a bottle of Dr. Miles' Heart Cure, and before I had used half of it I could lay down and sleep all night. Previously I had to get up from five to ten times a night. I have taken several bottles, and my heart is as regular as clock work. I feel like a new man, and can work considerable for an old man, 84½ years old."

H. D. McGILL, Frost, Ohio.

Dr. Miles' Heart Cure is sold by your druggist, who will guarantee that the first bottle will benefit. If it fails he will refund your money.

LETTUCE PRICES GOOD.

Plant Now Bringing Fine Prices in New York Market.

The lettuce grower who has an acre patch now is fortunate, since that plant is bringing in the New York markets most fabulous prices.

Telegrams received in this city from New York Friday bear information that lettuce is bringing from $4 to $7 a basket, owing to quality, and that the demand was good. Florida lettuce is especially fine, and is realizing the best prices in the markets.

Fraud Exposed.

A few counterfeiters have lately been making and trying to sell imitations of Dr. King's New Discovery for Consumption, Coughs and Colds, and other medicines, thereby defrauding the public. This is to warn you to beware of such people, who seek to profit, through stealing the reputation of remedies which have been successfully curing disease for over 35 years. A sure protection, to you, is our name on the wrapper. Look for it, on all Dr. King's or Bucklen's remedies, as all others are mere imitations. H. E. YOU MAY BE CURED

544 Garfield Avenue,
CHICAGO, ILL., October 9, 1902.

After doctoring for eleven months and taking forty-three bottles of medicine and finding no relief for leucorrhœa resulting from irritation of a fallen womb I took Wine of Cardui and fourteen bottles cured me. This seems strange but it is the simple truth. Wine of Cardui helped me from the time I began taking it and having heard it praised so highly by friends who had tried it I felt satisfied that it would help me, and it did. It cured me. Took every bit of ache, pain and headache, cramps and dragging down sensations away till I felt young, strong and happy once more. It is a wonderful medicine and a true friend to women. When I look back on the months of torture I had it seems like a hideous nightmare. Wine of Cardui will cure any woman I believe. I have more faith in it than all other medicines combined.

Frances Kingsley

Vice-Pres., Chicago Historical Club.

How can you refuse relief when you know you are growing worse day after day? Shooting pains, irregularity, inflammation and bearing down pains make thousands of women miserable. Why drag through life never enjoying anything? Wine of Cardui has made over 1,500,000 weak and suffering women well and strong. We ask you to go to your druggist today and secure a $1.00 bottle of Wine of Cardui and begin to take it at once. Do that and the health Mrs. Kingsley writes about will soon be yours. If you think special directions are needed in your case, address, giving symptoms, Ladies' Advisory Department, The Chattanooga Medicine Co., Chattanooga, Tenn.

AN ADVERTISING THOUGHT.

The man who buys a suit of clothes pays the price asked by the dealer, if he finds the quality he wants. But the man who buys advertising frequently complains that the price is too high, when he knows little or nothing about the quality.

Never judge yourself as you judge others. You might become discouraged.

We suppose he will sign his name now "Dr. William Hohenzollern of Berlin, diseases of head a specialty."

It is said that the strikes have paralyzed trade in Poland, but they haven't paralyzed the travel of Polanders to the United States.

A Western Senator who read that there would be four eclipses in 1905, wondered if his political career would get mixed up in any of them.

Why is it, we ask, that we are such miserable ingrates as to always be ready to throw bouquets at the dead and to sling mud at the living?

Girls used to have "engagements," nowadays they have "dates." It is said of a popular girl in town that she has more dates than an almanac.

A locomotive going at express speed gives 1,056 puffs to the mile, while a cigarette smoker going down the line may give as many in rounding up a couple of blocks.

Statistics show that the average height of the American woman is two inches more than it was twenty-five years ago. Yes, they come higher, but we must have them.

W. H. Newman, president of the Vanderbilt system of railroads, gets the handsome salary of $120,000 a year and a palatial residence in New York, besides a sumptuously fitted private car. The people pay the freight.

As has been expected the Senate will stand by Judge Swayne, and no doubt has ordered the finest bucket of whitewash seen in the Capitol to adorn his anatomy. There is nothing in the case for that body but to declare the case nit.

Mr. E. P. Thagard of Marion county has announced himself a candidate for State Senator in place of Hon. C. M. Brown. A motion is in order that the rules be suspended and the editor of The Ocala Banner cast the ballot for his election.

Reports regarding peace in the Far East seem to be without foundation. It is thought the Czar is only "sparring to catch his wind," or stopping long enough to shift his commanding officers. Many of the semi-official papers think that the Czar is opposed to stopping the war.

In order to obviate the frequent disputes as to the ages of children on transportation lines, the authorities in Switzerland have decided that in every case where doubt arises the child must be measured. All children under two feet are to have free passage, and those between two feet and four feet are to pay half fare.

OUR SCHOOLS.

Superintendent of Public Instruction W. M. Holloway, who was in the city a few days ago, manifests his usual earnestness in the jealous care of our public schools. Always enthusiastic in his work, he seemed more animated than ever. He believes in securing the best officials as well as teachers, and all good citizens will agree with him, for the control of our schools—in the theory of our politics—is a matter no less important than the securing of an independent and upright judiciary, composed of men selected for declared qualifications for the positions.

It is one of the most gratifying facts in connection with our form of government, that the school system is an essential part of it. The school district is a political division as old as that of the township. In many cases they ante-date the municipal organization of which they have become a part, but by which they are never succeeded, and throughout the complexities of our governmental system they remain in all the sacredness of an antiquity which bespeaks the fundamental love of the people for education and an undivided belief in its necessity. With the little red school house there is associated a sentiment which strikes down to the bed rock of patriotism. With its successor and contemporary, the mammoth modern school, there is associated the same sympathy. The great State universities stand as an amplification of the system, and it is all very dear to every American heart.

Advancement in our school system is always a step forward, and with opportunity which is now open to the people of Florida for a greater appropriation for our schools the coming year, and the assurance of having better instructors, will improve the schools that are now in need of building a little higher by placing them in more competent hands.

The city of Los Angeles, California, owns 300 acres of brush land called "Griffith Park," which it proposes to convert into a commercial forest. This will be the first instance of a city in the United States creating a forest. The practice is quite common in Europe, where the forest-parks have not only contributed to the pleasure of the people, but have been more than self-supporting through their timber output.

The House of Representatives at Washington is composed of representatives of the people and will try and do something for them. But the Senate, the "millionaire club," will kill everything, regardless of the wishes of the people. There is no need to look for any relief from this source.

The cruiser Washington was launched at Camden on the 22nd. There was a whaler launched on the troubled seas 173 years ago the same date, and he was also something of a cruiser.

For the benefit of those who have not kept up with the Swayne trial, we will state that the matter of "legal" residence of the Judge is only one of the many charges against him.

There is more catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven catarrh to be a constitutional disease and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from ten drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials.

FREIGHT RATES.

The orange growers of this State have a hard proposition to contend with. At the meeting of the farmers and fruit growers held at Orlando, February 21st, the question of freight rates was brought up and it was shown that oranges can be shipped from Riverside, Cal., to Boston or New York as cheap, and in some cases cheaper, than a Florida grower can ship to points in Georgia or South Carolina. In some instances it was shown that the shipments to interior points in some of the Southern States were practically prohibitive. For instance, it costs 86 cents to send a box of oranges to Chester, S. C., on the Southern Railway, and 90 cents from California to Boston, Mass. There would be no trouble about the fruits and vegetables being forthcoming if the rates could be made reasonable.

The Florida farmer can compete with any in the land with fair rates for shipment, but when he has to pay 67 cents to ship a box of oranges to Boston, and the same box is shipped back to Florida at one-third that amount, the contents being more in weight, it is time some action should be taken in the matter.

With an equal rate of shipment that is granted in other portions of the United States, the advance in Florida would be greater than in any other portion of our land, for we can produce as cheap as all others, and with fair treatment at the hands of lines of railroad running to the North and West will take our chances with the rest of the world.

This subject needs the consideration of our leading men and legislators.

The Simple Life.

In my wanderings on foot when I walk through the provinces of Europe and talk to the people and fish and learn I find that what people lack most in life is simplicity, the poor man as well as the rich. It consists not in plain dress, but in plain living, in simplicity of heart, of personal beliefs and respect for the beliefs of others.—Rev. Charles Wagner.

Preparedness.

Begin the morning by saying to thyself, I shall meet the busybody, the ungrateful, arrogant, deceitful, envious and unsocial, but I, who have seen the nature of the good, that it is beautiful, and that of the bad, that it is ugly, can be injured by none of them.—Marcus Aurelius.

Cause For Sorrow.

Brown—Smith is down with brain fever. Green—You don't say so! Brown—Yes. The doctor says if he recovers his mind will be a blank. Green—Well, I'm sorry to hear that. He owes me $10.

Spiteful.

Kate—Do you think it's true that people catch anything through kissing? Madge—Oh, I don't think so. See how often you've been kissed and you've never caught anybody yet.

"Peruna has my heartiest endorsement. If there is any place that you are helpless when ill, it is on board a steamer, at sea, miles away from any assistance.

"Sometimes two or three of my men would be sick at one time and seriously cripple the force, but since we have learned of the value of Peruna, by taking a few doses they recuperate very quickly.

"We use it for colds, lung trouble and kidney diseases, and have also found it very fine for la grippe.

"Peruna is always one of the most important supplies of my steamer."—E. A. Watson.

WASHING WITHOUT WATER

Is Like Trying to Get Rid of Dandruff Without Herpicide.

Did you ever see any one trying to wash themselves without soap or water?

If you did what would you say of him?

It is every bit as foolish to try to get rid of Dandruff and to prevent Baldness by feeding the germs which cause it, with Canthrarides, Vaseline, Glycerine and similar substances which form the principal ingredients of most so-called Hair Vigors.

Newbro's Herpicide is successful because it attacks and kills the parasitic germ which feeds on the hair roots.

It is the original and only genuine scalp germicide manufactured.

Sold by leading druggists. Send 10c. in stamps for sample to The Herpicide Co., Detroit, Mich.

WANT CONVICTS TO MAKE ROADS

Bill Introduced in North Carolina Legislature to Abolish Penitentiary.

Raleigh, N. C., Feb. 24.—A bill has been introduced in the legislature which really means the abolition of the penitentiary. Its author is John S. Cunningham, who is the president of the State Tobacco Growers' association.

The bill provides for the sale of the 8,000-acre state farm on the Roanoke river, and the use of all the convicts except perhaps the life prisoners, on the public roads. The penitentiary proper is an enormous building, and has cost first (and last nearly a million dollars, since it was begun in 1870. There are in it less than 200 convicts and about 50 of the class known as the criminal insane, that is, persons who have committed high crimes, but who escaped other punishments by being found to be insane.

There are about 400 convicts now at the state farm. The author of the bill claims that the penitentiary does not really make money, and that the raising of cotton and peanuts at the farm puts the convicts in conflict with free labor.

Good Health to the Children

Children especially are fond of dainties, and the housekeeper must look carefully to their food.

As good cake can be made only with good eggs, so also a cake that is healthful as well as dainty must be raised with a pure and perfect baking powder.

Royal Baking Powder is indispensable in the preparation of the highest quality of food. It imparts that peculiar lightness, sweetness and flavor noticed in the finest cake, biscuit, doughnuts, crusts, etc., and what is more important, renders the food wholesome and agreeable to young and old.

Dr. E. W. Hall, St. Louis, Mo.—Dear Sir: Having tried different doctors and their remedies for several years for back and kidney troubles, I found nothing successful until taking The Texas Wonder, Hall's Great Discovery, and being rapidly cured, the old saying with railroad men is "God bless the man who invented the Pullman sleeping car," but I say "God bless the inventor of Hall's Texas Wonder." Yours truly, W. B. Clark, M. & O. R. R. Co., Mobile, Ala.

Local Musical Talent.

In the persons of Avery G. Powell of Lake Butler, until recently of this city, and Harry Alexander, Gainesville has a couple of musical artists of some note—at least the prospects of a great deal of note. These young men will soon launch upon the musical sea for the consideration of admirers of ragtime a song entitled, "Oh, Miss Mandy." The words are by Mr. Alexander, while the catchy music was composed by Mr. Powell. The work has been submitted to one of the largest music houses in the United States, who give a most flattering report, stating that it possesses beauty of thought and phrasing, and particularly pleasing music.

Alexander & Powell expect to place the order at once for a large number of copies, and this song will be placed upon the market in a short time.
